YES WE SERVED!

YES, WE FURTHER SERVED in the Spanish-American War. The sinking of the U.S. Navy Battleship Maine, in Havana Harbor on February 15, 1898, and the resulting loss of American lives gave both, the civilian and military forces the cause that they needed for war. However, the suddenness of this terrible event revealed the shortcoming in military preparedness.

The army at this time only totaled little more than 26,000 men and 2,000 officers.

To make matters worse, the small numbers of experienced combat troops were sta-

tioned at numerous forts throughout the west. Under these circumstances, some of the first units ordered to Cuba were four black regiments.

The War Department determined that blacks were immune to the diseases of the tropics and capable of more activity in high, humid temperatures. Black Buffalo Soldiers were among these men.

During this conflict, Buffalo Soldiers were described as "most gallant and soldierly". On one landing at Tayabacoa, Cuba, 10th Cavalry Privates William H. Thompsons, Fitz Lee, Dennis Bell, and George Wanton voluntarily went ashore in the face of enemy fire to rescue wounded U.S. and Cuban comrades. After several attempts, they succeeded. Each was awarded the Medal of Honor. A career soldier, Thompsons was eventually buried at the Presidio's San Francisco National Cemetery, along with another 450 Black veterans of the 9th and 10th Cavalry and the 24th and 25th Infantry.

'Dallas' Too Busy Growing To Hate

EDITORIAL PAGE

DEAR EDITOR:

Dear Editor,

A new report from the American Cancer Society predicts that breast cancer will likely affect more Texans than any other cancer in 2014. But it doesn't have to.

Studies have shown a link between high cholesterol and breast cancer, and scientists say the research suggests that women

may be able to reduce breast cancer risk by either taking cholesterol-lowering drugs or eating a healthy, low-cholesterol diet.

Personally, I would rather my intake of colorful meals than colorful medicines. Fruits and vegetables have zero cholesterol, which is just one reason why you'll find scores of them on lists of "cancer-fighting foods." Whole grains are cholesterol-free too. In fact, no

plant product contains any cholesterol.

But meat, eggs, and dairy products all pack a cholesterol punch. A single egg has 212 milligrams, three and a half ounces of shrimp has 194, and three and a half ounces of chicken liver delivers a whopping 631 milligrams.

I lost the person that I was closest to, my grandmother, to breast cancer when she was just 64 years

old. So reducing my breast cancer risk is important to me. And cutting animal products out of my diet is an easy way to do that.

Going vegan is one of the best decisions I've ever made, and I hope that, until there is a cure for breast cancer, others will join me in taking this important step for their health.

Sincerely,
Michelle Kretzer

BLACK HISTORY MONTH: NEEDED NOW MORE THAN EVER

By Marc H. Morial
NNPA Columnist

"There is no more powerful force than a people steeped in their history. And there is no higher cause than honoring our struggle and ancestors by remembering."

- Lonnie Bunch, founding director, National Museum of African American History and Culture

Ever since the 2009 election of Barack Obama as America's first Black president and the 100th anniversary of the National Urban League in 2010, the perennial debate about the need for Black History Month has intensified. Some have questioned the need for a special month to rec-

ognize the many unknown and unsung achievements of African Americans. With Obama as president, the logic goes, we have now achieved Dr. King's dream of a non-racial America where everyone is judged by the content of their character, not the color of their skin. I wish it were so.

Last year, we celebrated the 50th anniversary of the March on Washington and the passage of the Voting Rights Act. This year marks the 50th anniversary of the 1964 Civil Rights Act and the repeal of the poll tax. But unfortunately, the suppression of voting rights and other instances of racial discrimination remain. All one needs to do is look at the glaring disparities between Blacks and Whites in income, employment, incarceration rates, educational achievement and health status to see that race still matters in America. Income inequality and equal opportunity are still part of the unfinished business of American democracy.

In 1926, after centuries of Blacks being excluded, not only from the mainstream of American life, but also from the textbooks in our schools, African

American historian Carter G. Woodson did a service to all Americans when he created Negro History Week, which was expanded to Black History Month in 1976. Woodson's vision was one of unity and inclusion. He said, "What we need is not a history of selected races or nations, but the history of the world void of national bias, race, hate and religious prejudice." That is a goal that America is still struggling to achieve.

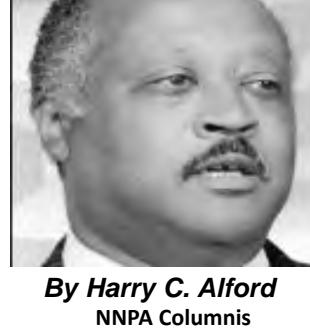

In fact, legislatures in a number of states, including New York, Illinois, Pennsylvania and New Jersey, have passed laws mandating or encouraging teachers to broaden their history courses to include more ethnic, racial and gender diversity. That is why we still recognize March as Women's History Month, May as Jewish American History Month, September 15 to October 15 as Hispanic Heritage Month and February as Black History Month. These celebrations serve a dual purpose: first to build self-esteem among historically oppressed people, and second to remind all Americans that in the face of seemingly insurmountable odds, our diversity is our

greatest strength.

Black history is American history. While the story and achievements of African Americans are especially celebrated this month, the contributions we have made and the struggles we still face deserve recognition every day of the year. Next year, for the first time, Black History will enter the mainstream when the Smithsonian's National Museum of African American History and Culture opens on the National Mall in Washington. The Museum describes itself as "a place of meaning, of memory, of reflection, of laughter, and of hope. It should be a beacon that reminds us of what we were; what challenges we still face; and point us towards what we can become."

As we honor those who have made history, we must also recognize that we are history in the making. Through our work, commitment to equality and civic engagement, we can and we must, in the words of President Obama, continue to "right the wrongs of history and make our world anew."

Beyond the Rhetoric Affordable Care Act - It's Terminal

By Harry C. Alford
NNPA Columnist

To overhaul and drastically change a major industry that accounts for one sixth of our economy is more than aggressive. It is revolutionary. There are 31 million Americans who do not have insurance. So, a need to change was quite obvious but how you do it remains a mystery. Yes, the attempt is being made but so far it is a comedy (or tragedy) of errors. Nancy Pelosi said, "We must first pass the bill then we can read it and find what it is all about." We followed that logic and have gotten ourselves into a mess with historical proportions. Obamacare is mired in confusion and the Department of Health and Human Services is truly going in circles at 100 miles per hour.

It is just too big. Insurance is an industry made up of many corporations with governance over their brand and delivery

system. There is no way one entity can manage all of this but, for some reason, our government feels it can do it. No government can run a business and especially not a giant industry. The many thousands of pages written to implement this law remind me of a road map filled with many streets crossing each other. As the mistakes are being rolled out, excuses, accusations, spin and sometimes downright lies are being applied by those in charge of implementing this law. History will show that this is perhaps one of the biggest blunders ever by this great nation.

An important piece of this operation is to be the website, www.healthcare.gov. HHS decided to give a no bid contract to a Canadian company by the name of CGI for the construction of the site. CGI had just been fired by the province of Ontario for inferior work and this isn't the only government to have trouble with this company. Predictably, it was a nightmare. My sons could have put this website together far better than this scandalous company. Finally, amid all of the press exposing all of the mistakes being made by this contractor, HHS decided to cut their losses (approximately \$100 million) and replace CGI. Did they go to Google, IBM, CSC, etc. for competitive proposals? No, they went the way of another no bid

contract to the tune of \$91 million given to Accenture. This company was once known as Arthur Anderson but they changed to Accenture after their involvement with the infamous Enron scandal.

Accenture has a reputation that is not too illustrious. Chances are not much improvement is going to be made. The headquarters of this company is Ireland - yes, another foreign firm. Why are they in Ireland? Ireland is tax free and has become a haven for businesses trying to avoid America's tax system. It's like the Cayman Islands, Bermuda, etc. What really troubles me about the website is who is helping build it. It has been confirmed that programmers from the nation of Belarus are involved in the construction of this site. Belarus is known for one thing. They have the most vicious Internet hackers in the world located there. My Lord, what are we getting into? The "fox" is working in the "hen house". The website is already a disaster and it looks like it is going further south real fast.

The program is based on a "bet". It assumes that young people under 30 years will heavily populate the enrollment. That way these healthy enrollees will have little claims and could offset the cost of older persons with illness history and those with pre-existing conditions. It is

not working that way - so far, 50% of the enrollees are over the age of 40. Thus, the cost estimates are terribly miscalculated and this program is headed for bankruptcy. Probably, the participating insurance companies will need a government bailout to the tune of hundreds of billions of dollars.

This program is just out of control. There are too many variables and the management skill sets needed to pull this thing off are just not there. The law is being amended in an unconstitutional manner. Changes are to be made with Congress' approval and they are not. In fact, there have been 27 delays as we roll the program out. Various groups are being waived and that is against the written law. It's helter skelter.

The Congressional Budget Office has issued its comprehensive report about this Affordable Care Act/Obamacare. This nation will lose 2.3 million jobs over the next few years as a result of the program. Furthermore, 30 million Americans will remain uninsured. Wasn't the goal of this monster to ensure the uninsured? My people this is spelling FAILURE. Certainly, it is a great concept. The major problem is we have the wrong players in this game. Save our money, pull the plug and let's return to our insurance system.

"THE PSALMIST'S SUPREME CONFIDENCE IN THE STEADFAST CHARACTER OF GOD" PSALM 61:1-8

The word of God informs us in I Corinthians 10:4 that the "Rock" is Jesus Christ, that verse reads, "And did all drink the same spiritual drink: for they drank of that spiritual Rock that followed them: and that Rock was Christ."

In verses 1-2, David expresses his feeling of being weak and he prays to the Lord for strength and safety, "Hear my cry, O God; attend unto my prayer" (v. 1). David petitions to be led to a place of safety; thus, he wanted to be led to the "Rock" that is higher than he was, "when my heart is overwhelmed: lead me to the rock that is higher than I" (v. 2). In times of deep trouble and distress, we need God's steadfast protection, for Psalm 17:8 says, "Keep me under the shadow of thy wings."

Yes, as the storms of life rage,

we need God's comfort and assurance as He grants to us His unfailing mercy, for Psalm 57:1 states, "Be merciful unto me: for my soul trusteth in thee: yea, in the shadow of thy wings will I make my refuge, until these calamities be overpast."

David experienced tremendous spiritual relief in the above examples by placing his faith in the steadfast character of God. God will never abandon His saint and one can be assured of God's presence in any situation, in that Hebrews 13:5-6 says, "I will never leave thee, nor forsake thee. So that we may boldly say, The Lord is my helper, and I will not fear what man shall do unto me."

Having expressed his weakness, David declares his confidence in the steadfast character of God, his only source of protec-

tion (vv. 3-4). David knew that God was indeed a sure hiding place against his enemies as verse 3 states, "For thou hast been a shelter for me, and a strong tower from the enemy." God's presence is a sure place of safety for all believers! Because of the Lord's faithful promise to him, in verse 5-7, David was confident of God's protection in prolonging his life; thus, David's life will be sustained by God's love and faithfulness, "Thou wilt prolong the king's life: and his years as many generations" (v. 6).

Because of the Lord's faithfulness toward him, David vows to sing and to praise the Lord for His deliverance, "So will I sing praise unto thy name for ever, that I may daily perform my vows" (v. 8).

May God Bless!

Pastor - Mount Moriah
Missionary Baptist Church

The superscription of this blessed Psalm 61 reads, "To the chief Musician upon Neginah, A Psalm of David." The word "neginah" means a stringed instrument; thus, this psalm can be played upon a stringed instrument. The historical occasion for Psalm 61 is unknown; however, in this psalm, David is awfully depressed but he gains confidence in the Lord as his Rock.

The most wonderful love letter ever written is the Bible. The Bible allows mankind to

A Little Bit of Faith: You Are Loved

hear God's voice, experience His love and compassion for His people, and to see how our hope is built on His son Jesus Christ. All of us have a strong desire to be loved. We want a sincere love, a love that will never end, and a love that will stand the test of time.

Since we all desire to be loved, Valentine's Day can leave many of us feeling unloved and not wanted. But if we move toward the Word of God, He can help us to see that His per-

fect love for us is all that we need. There is no need for us to feel lonely or unloved. He loves us more completely and more deeply than anyone ever can.

Therefore, in First John, it reminds us that God loves us completely. "We have known and believed the love that God has for us. God is love" (1 John 4:16). The purest, most honest, and most joyful love that we can ever experience is the love that our Heavenly Father has

for us. As a matter of fact, God's love for us always has action. He does not give us lip service, he shows us. The major way God has shown how much He loves us is by giving us His only Son Jesus. Jesus was born of a virgin, lived among us, crucified, and He rose again.

So if you were feeling a little lonely, unloved, and unwanted this past Valentine's Day, cheer-up. Know that you have a greater love. The love of God! Amen? Amen!

Evan Gets Good Results In The Dallas Challenger

Keeping a close eye on a future super star in tennis...

Evan King won three matches in the Qualifiers and two matches in the Main Draw to reach the Quarter Finals in Singles in the Challenger of Dallas, Texas, a USTA Pro Circuit Event, February 9, 2014. King also reached the Semi Finals in Doubles of this Dallas Challenger.

The Challenger, held each year at the T Bar M Racquet Club in far North Dallas, attracts most of the top young male players who have potential for winning a Grand Slam title one day. It gives them an opportunity to get a taste of what the professional tennis circuit is all about.

This is Evan's first full year as a young professional, just coming into it full swing after a highly successful career as a collegiate player. He is a 2013 University of Michigan graduate who was a three-time All-American (2011-13). He was also the Big Ten Athlete of the Year in 2012 and 2013.

Evan owns the Michigan program record for most combined career singles and doubles wins (196 wins). And Evan ranks 3rd all-time on Michigan's singles wins list with 117 wins.

On the USTA Pro Circuit, King has reached 1 Finals, 3 Semi-Finals, and 3 Quarter Finals since May 2013. He captured the Doubles title at the Futures in Sunrise, FL, so far this year, and has won three additional Doubles titles at ITF Circuit events. His Singles ranking currently is number 491, and ranks number 294 in Doubles.

Evan is a lefty who plays very aggressively, and charges the net behind a powerful serve or approach shots that he hits deep in the court with a lot of spin. Once he gets to the net, his volleys are powerful enough to put the balls away with ease.
